

Watercraft Compliance Declaration

We hereby declare that all watercraft meet or exceed the regulated standards for capacity and flotation as set forth by the United States Coast Guard (USCG) and other applicable regulatory bodies.

All our watercraft are designed and tested to comply regulated capacity requirements:

1. **Persons Capacity:** Determined in accordance with 33 CFR 183.41.
2. **Weight Capacity:** Calculated as per 33 CFR 183.33.

Our watercraft meet the following flotation standards:

1. **Vessels under 20 feet:** Comply with Level Flotation requirements as specified in 33 CFR 183.225.
2. **Vessels 20 feet and over:** Meet Basic Flotation standards as outlined in 33 CFR 183.105.

We certify that all our watercraft undergo and pass the following tests:

1. **Capacity Test:** Conducted in accordance with 33 CFR 183.335.
2. **Flotation Test:** Performed as per 33 CFR 183.225 (for vessels under 20 feet) or 33 CFR 183.105 (for vessels 20 feet and over).

All tests are conducted by qualified personnel using calibrated equipment and following prescribed USCG procedures.

Quality Assurance

Exotic JetCar maintains a rigorous quality assurance program to comply with all applicable regulations consistently. Our manufacturing processes and testing protocols are regularly reviewed and updated to reflect the latest industry standards and regulatory requirements.

Detailed compliance documentation for each watercraft model is maintained at our facilities and is available for inspection by authorized regulatory bodies upon request.
